

# Initiative Insights: SDG Navigator

Project Submission & Closing

# Quick Refresher

## SDGs Addressed

## What's Out There

## What They Do

- Provide solutions to for-profit organizations who know their alignment
- Provide examples on projects from different organization types that incorporate the goals

## What I Did

- Provide opportunity for non-profit organization to determine SDG alignment
- Provide examples and resources on how the alignment could be implemented

# Research Results

## Community Orientations

- Content
- Service Context

## Technology Inventory

- Nothing exists to tell you your goal alignment
- The examples that exist cater to every other organization type or are at a global level

# Golden Circle Recap

## Why

Non-profits are low in resources and are disadvantaged when it comes to incorporating SDGs.

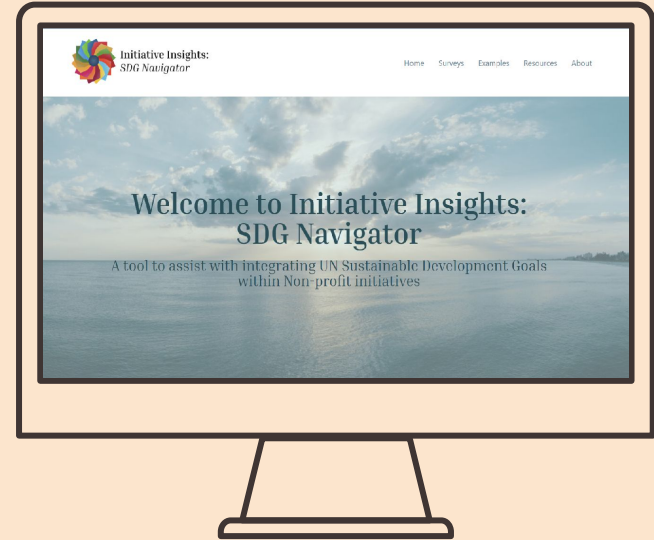

## How

With this notion, they need a solution that is informative yet resource friendly.

## What

Create a website that will assist users with goal alignment and provide relevant examples on implementation.

# Demonstration

---

# Relating Back to Lectures

## Knowledge Management

Provide a managed knowledge database for organizations to use when incorporating SDGs.

## Progressive Learning

Giving the user the choice to decide the personal level of learning they get when they use the website.

# Future Work/Reflections

## Feelings About Project

- I feel good
- I feel it was successful
- I liked the networking and creativity aspect

## Proudest Moment

- Being able to secure enough interest to keep the project going after the course

## What I Learned

- My ability to adapt to unforeseen issues was better than I thought

## How to Use What I Learned

- Reach out to your connections if you think they can help
- Making the extra effort to go to events is worth it in the long run

## Future Work

- Expanding the audience to more than just non-profits
- Incorporating it into the Regina SDG Dashboard
- Secure funding down the road
